

Half Year Results 2012

24 July 2012

Safe harbor

Non-GAAP measures and management estimates

This financial report contains a number of non-GAAP figures, such as EBITDA and free cash flow. These non-GAAP figures should not be viewed as a substitute for KPN's GAAP figures.

KPN defines EBITDA as operating result before depreciation and impairments of PP&E and amortization and impairments of intangible assets. Note that KPN's definition of EBITDA deviates from the literal definition of earnings before interest, taxes, depreciation and amortization and should not be considered in isolation or as a substitute for analyses of the results as reported under IFRS. In the net debt / EBITDA ratio, KPN defines EBITDA as a 12 month rolling total excluding book gains, release of pension provisions and restructuring costs, when over € 20m. Free cash flow is defined as cash flow from operating activities plus proceeds from real estate, minus capital expenditures (Capex), being expenditures on PP&E and software and excluding tax recapture regarding E-Plus.

Underlying revenues and other income and underlying EBITDA are derived from revenues and other income and EBITDA, respectively, and are adjusted for the impact of MTA and roaming (regulation), changes in the composition of the group (acquisitions and disposals), restructuring costs and incidentals.

The term service revenues refers to wireless service revenues.

All market share information in this financial report is based on management estimates based on externally available information, unless indicated otherwise. For a full overview on KPN's non-financial information, reference is made to KPN's quarterly factsheets available on www.kpn.com/ir

Forward-looking statements

Certain statements contained in this financial report constitute forward-looking statements. These statements may include, without limitation, statements concerning future results of operations, the impact of regulatory initiatives on KPN's operations, KPN's and its joint ventures' share of new and existing markets, general industry and macro-economic trends and KPN's performance relative thereto and statements preceded by, followed by or including the words "believes", "expects", "anticipates" or similar expressions.

These forward-looking statements rely on a number of assumptions concerning future events and are subject to uncertainties and other factors, many of which are outside KPN's control that could cause actual results to differ materially from such statements. A number of these factors are described (not exhaustively) in the Annual Report 2011.

Executive summary

- Accelerated investment strategy in The Netherlands on track
 - Confirming 2012 EBITDA, Capex and FCF outlook
- Adjusting shareholder remuneration to balance sustainable dividend level with increased financial flexibility, DPS of € 0.35 for 2012 and at least € 0.35 for 2013
- KPN remains fully focused on creating value for shareholders
 - Balancing a prudent financial framework, investments and sustainable shareholder remuneration
- Outcome strategic review for E-Plus, as presented on 21 June 2012
 - Significant value of German business
- BASE sale process started this month
 - To be sold only for the right price
 - Proceeds to be used to improve credit profile and financial flexibility
- Maintaining an active dialogue with all shareholders, including América Móvil
 - Continue discussions with América Móvil on realizing synergies for the benefit of all KPN shareholders
 - América Móvil has shareholder rights via General Meeting (see Annex)
 - KPN Boards committed to protect the interests of all shareholders

Adjusting shareholder remuneration

Sustainable dividend level and increasing financial flexibility

Increase financial flexibility

- Continued difficult economic outlook
- Maintaining prudent financial framework is essential in current financial markets
- BASE sale process started and proceeds will be used to increase financial flexibility
- Dividend per share of € 0.35 in 2012, interim dividend of € 0.12 in August
- Dividend at sustainable level leading to outlook for dividend per share of at least € 0.35 in 2013

Shareholder value creation

- Commitment to a sustainable dividend policy
- Retained cash will be used to support financial framework
- Shareholder value creation by striking the right balance between
 - a prudent financial framework,
 - investments, and
 - sustainable shareholder remuneration

Outlook

Confirming EBITDA, Capex and FCF outlook, adjusting DPS

	2012 Outlook
EBITDA ¹	€ 4.7 - 4.9bn
Capex	€ 2.0 - 2.2bn
Free cash flow ²	€ 1.6 - 1.8bn
Dividend per share	€ 0.35

- Accelerated investment strategy in The Netherlands on track
 - Supporting sustainable profit levels from end-2012
- Dividend per share outlook adjusted
 - Increasing financial flexibility
 - Sustainable dividend level

- Dividend per share outlook 2013 of at least € 0.35

¹ Excluding restructuring costs

² Free cash flow defined as cash flow from operating activities, plus proceeds from real estate, minus Capex and excluding tax recapture E-Plus

Strategic overview The Netherlands

Important progress made

Consumer Mobile

- Introduction new propositions
- Optimization distribution footprint
- Stabilization market share in 2012

Consumer Residential

- Improve copper and FttH propositions
- Expand addressable market
- Regionalized approach
- Bottom-out broadband share end '12

NetCo

- Best-in-class fixed & mobile networks
- Up-scaling LTE
- Hybrid FttH-VDSL strategy
- >40Mbps coverage at 70% end '12

Business & Corporate Market

- Integration of Business and Corporate Market, rebranding Getronics
- Leading Business & ICT player
- SME / SoHo challenger brand

Cost leadership

- Improve underlying cost structure
- Accelerated 4,000-5,000 FTE reduction finalized by 2013
- Capex efficiency & procurement

Simplification & Quality

- Quality improvements in customer service and efficiency for all segments
- Improve FTR, step-up in NPS

Strategic overview Mobile International

Important progress made

Germany

- Maintain profitable growth momentum, balancing revenue growth and margin
- Introduce innovative value for money data propositions
- Expand multi-brand and segment approach
- Mobile broadband network for mass market

Belgium

- Driving challenger strategy with new innovative propositions
- Maintain strong profitable growth
- Continue roll-out of mobile broadband network
- Sale process started this month

YOUR MOBILE
FREEDOM

RoW

- Align focus Ortel Mobile with KPN core markets and assess options for other activities
- KPN France sold
- Assessing options KPN Spain

Highlights Q2 '12

- Important steps taken in reinforcing brand positioning Consumer Mobile
 - Market share stable at 45%
- Leading TV proposition in Dutch market
 - TV market share increased to 19%
- Fiber-to-the-Home penetration increasing
 - 7%-points higher penetration level y-on-y
- Good progress in FTE reduction program
 - Recorded restructuring costs for ~2,500 FTE since start of program
- Promising introduction of postpaid all-net flat propositions in Germany
 - High postpaid net adds in Q2 '12 of 179k (Q2 '11: 102k)
- Continued strong profitable growth in Belgium
 - Underlying service revenue growth of 12%

4 Defined as net cash flow from operating activities, plus proceeds from real estate, minus Capex and excluding tax recapture E-Plus

- Free cash flow of € 571m YTD '12
 - € 334m lower EBITDA
 - € 187m negative tax comparison due to one-off innovation tax facilities in 2011
 - € 70m higher Capex
- Partly offset by
 - € 155m higher change in provisions
 - € 67m higher change in working capital
- 7.8% higher Capex YTD '12 driven by
 - Investments to strengthen the Dutch businesses
 - Accelerated network roll-out in Belgium and Germany

Financial review – Dutch Telco

- Revenues and other income down 5.1% y-on-y
 - Regulatory impact of € 23m (1.3%)
 - Lower revenues mainly in Consumer Mobile and NetCo
- EBITDA excluding restructuring costs down 11% y-on-y
 - € 87m lower revenues
 - Regulatory impact of € 8m (0.8%)
 - € 20m net negative impact from incidentals
- EBITDA margin¹ of 49.1% in Q2 '12 impacted by
 - Investments to strengthen domestic market positions
 - Decline of high margin traditional services
- € 41m restructuring costs in Q2 '12
 - Total restructuring costs € 72m since start of FTE reduction program

¹ EBITDA margin excluding restructuring costs, if any

Financial review – Dutch Telco by segment

- Revenue decline Consumer Mobile 9.4% y-on-y
 - Service revenue decline of 9.6%, impacted by regulation of € 11m (2.5%)
 - Supported by € 7m incidental
- EBITDA margin¹ at 30.4%
 - Supported by introduction new commercial propositions, including handset lease model
 - Supported by € 7m incidental
- Revenues Consumer Residential down 4.6% y-on-y driven by decline fixed voice customers
- EBITDA margin¹ at 21.9%
 - Continued decline high margin traditional services
 - Increased content costs due to premium packages
 - Q2 '11 margin supported by € 11m incidental
- Cost reduction measures at Consumer Residential, substantial FTE reduction planned for H2 '12

¹ EBITDA margin excluding restructuring costs, if any

Financial review – Dutch Telco by segment (cont'd)

- Revenues Business down by 2.3% y-on-y
 - Regulatory impact of € 6m (1.0%)
 - Traditional services decline and price pressure partly offset by increasing wireless data revenues
- EBITDA margin¹ relatively stable y-on-y
 - Supported by lower operational costs
 - € 10m positive incidental in Q2 '11
- Revenues NetCo down by 7.2% y-on-y
 - Lower traffic across all segments
- EBITDA margin¹ lower y-on-y at 57.0%
 - Higher costs related to uptake of FttH activations
 - € 6m net negative impact from incidentals
- Cost reduction measures at NetCo, substantial FTE reduction planned for H2 '12

Financial review – Corporate Market & iBasis

- Revenues and other income Corporate Market The Netherlands up 0.9% y-on-y
 - Supported by book gain sale of Getronics International (€ 8m) completed on 1 May 2012
- EBITDA margin⁴ at 6.8%
 - Supported by € 8m book gain sale of Getronics International
 - Lower personnel costs y-on-y due to accelerated FTE reduction program
- Revenues iBasis up by 6.1% y-on-y
 - Including 4.4% positive currency effect
- EBITDA margin relatively stable at 2.7%
 - Operating in competitive volume driven business environment

¹ Total revenues and other income includes eliminations

² EBITDA margin excluding impact Getronics International classification as asset held for sale

³ Impacted by sale of Getronics International on 1 May 2012

⁴ EBITDA margin excluding restructuring costs, if any

Financial review – Mobile International by segment

- Revenue growth of 4.9% in Germany
 - Service revenue growth of 3.0%
 - Positive impact sale SNT Inkasso of € 16m (2.0%)
- EBITDA margin at 39.8%
 - Lower margin y-on-y due to investments in growth
 - EBITDA margin excluding sale SNT Inkasso 38.6%¹
- Revenue growth in Belgium of 6.7%
 - Regulatory impact of € 10m on service revenue (5.8%)
 - Underlying service revenue growth of 12%
- Higher y-on-y EBITDA margin of 35.7%
 - Underlying EBITDA growth of 25%
- Revenue decline in Rest of World of 23% y-on-y
 - Sale of KPN France in Q4 2011
 - Ortel Mobile operating in competitive environment
- EBITDA stable q-on-q in Q2

¹ EBITDA margin excluding impact sale of SNT Inkasso (€ 16m)

Operating review – Consumer Mobile

Brand positioning reinforced, capturing all market segments

Segmentation reinforced

Youth segment

Service & Quality

Value for money

Positioning emphasized

Unlimited messaging

Flat fee calling / SMS

Long phone calls

New propositions launched

Access based: simplified, flexible and transparent propositions
Smart care: hassle free through handset lease

Differentiating services

Optimization distribution footprint

Best-in-class network

#1 position for 2G voice quality and 3G coverage
Large scale LTE roll-out starting this year

- Extensive coverage niche segments
- MVNOs form integral part of multi-brand strategy

Operating review – Consumer Mobile (cont'd)

- Service revenues (incl. wholesale) down by 9.6% y-on-y
 - Regulatory impact (2.5%)
 - Supported by € 7m incidental
- Market share service revenues stable at 45%¹
 - Strengthened distribution footprint (including multi-brand and XL stores) and partnerships
- Positive postpaid retail net adds of 30k
 - New propositions (Hi & Telfort) and increased commercial activities supporting postpaid retail base
- Postpaid ARPUs lower y-on-y at € 36
 - Committed % postpaid retail ARPUs ~63% impacted by seasonality (roaming and incoming traffic)
 - ARPUs remains under pressure driven by regulation and changing customer behavior

¹ Total Dutch (Consumer and Business) service revenue market share
² Q2 2011 net adds positively impacted by acquisition of Tring (14k)

Operating review – Consumer Residential

Market leading TV proposition to support broadband market share

“Most complete and richest customer package in the Dutch market”¹

¹ Independent research by Blauw Research (June 2012)

Operating review – Consumer Residential (cont'd)

Network upgrades to enable better user experience

Network upgrades on track

- 70% coverage of Dutch market with at least 40Mbps at the end of this year on track
 - Currently 53% of network allows for minimum guaranteed speed of 40Mbps
- Network upgrades enabling better user experience
 - 80Mbps packages supported by pair bonding
 - Connecting customers to upgraded network

% coverage of Dutch market, minimum speeds

Aligned with regional approach

- Speed upgrades copper network aligned with regional approach
 - Network upgrades first implemented in target areas
- Regional approach on track, initial results promising
- Approach continuously refined by experiences from targeted areas
- Acceleration regional approach scheduled for H2 2012 through up-scaling number of target areas

Operating review – Consumer Residential (cont'd)

FttH penetration increasing

- Solid number of FttH activations in Q2 '12 with 39k¹ net adds leading to 164k homes activated
- FttH penetration growth by 7%-points y-on-y
 - Demand aggregation new areas
 - Penetration growth existing areas

1 Including 13k from Lijbrandt acquisition
 2 HP is Homes Passed; HA is Homes Activated
 3 FttH penetration is defined as KPN FttH HA divided by KPN areas HP
 4 Based on all FttH areas, end of year 2011, which had been rolled-out for at least one year

Increasing value of FttH

- FttH areas⁴ successful vs. national average
 - Broadband market share development 8%-points better after one year
 - Blended copper / FttH ARPU ~€ 12 higher as a result of higher value packages

1. FttH penetration level increasing
2. Higher value packages and value added services to increase ARPU in future
3. Capex efficiency program to reduce roll-out costs

Increasing value of FttH

Operating review – Consumer Residential (cont'd)

- RGUs per customer continued to increase
 - More triple play in customer mix, 753k triple play packages (vs. 565k in Q2 '11)
 - Shift from standard to premium packages
 - Net line loss lower in Q2 '12 at 20k³ (50k in Q1 '12)
- ARPU per customer relatively stable at € 39
- Continued increase TV market share to 19%
 - Growth IPTV continued, 89k net adds in Q2 '12³
- Broadband customer base trend improved in Q2, stabilization expected in H2 2012
 - Triple play customer base increasing, 50k net adds in Q2 '12
 - Acquisition Lijbrandt added 12k customers
- Intensified regional market approach

¹ Digitenne used as primary TV connection
² Source: Telecompaper, management estimates for Q2 '12
³ Includes 12k broadband customers and 13k TV customers from Lijbrandt acquisition in Q2 '12

Operating review – Business

Multi-brand approach addressing diverging customer needs

Flagship brand

*'Trusted
integrated
Telco-ICT service
provider'*

- Comprehensive Telco & ICT portfolio for each business segment
 - Bundled & integrated propositions small office/home office (SoHo) & small & medium-sized enterprises (SME)
 - Customised solutions Large Enterprises (LE) & corporate clients
- Complementing excellent network quality with relevant services
- Extensive distribution network
 - Personalised account management for LE & corporate clients
 - Direct channels for SoHo & SME (KPN.com, business & contact centers)
 - Dedicated business partner organisation for SME

Challenger brand

*'Affordable
quality'*

- Good network quality available at low price
- No-frills telecom portfolio and basic service level
- Simple tariff structure with low regular tariffs
- Tailored towards SoHo & SME

Premium brand

*'Highest quality with
excellent service'*

- High end customized service focussing on client contact
- Portfolio focus on Internet, combined with high service triple play, offered in simple tariff structure
- Tailored towards SoHo

Distribution brand

*'Mobile provider with
business focus'*

- Mobile only provider, tailored towards SME
- High end service standard without premium pricing
- Flexible tariff structure, online cost analysis tool included
- Distribution only through trusted resellers to SME

Operating review – Business wireless

- Service revenues and market share stable y-on-y
 - Impact from regulation € 6m (2.4%)
 - Increased customer base and usage leading to mobile data revenue growth
 - Introduction of new mobile proposition for SME, LE and corporate clients (June 2012)
- Customer base growth
 - 71% of customers use data services
- Challenger brands (Telfort & Yes Telecom) showing good performance
- KPN entered into global alliance to initiate technological collaboration in M2M
- ARPU at € 39 impacted by regulation, ASPU decline, M2M growth and data mix effect

¹ Business wireless figures include Yes Telecom as of Q2 2011

² Q2 and Q3 2011 data ARPU included one-off items; normalized ARPU shows stable increasing trend of non-voice as % of ARPU

Operating review – Business wireline

- Revenues down 7.1% y-on-y
 - Further decline in traditional services
 - Maintaining strong market share in competitive market
- Continued focus on performance new portfolio
 - Flat fee propositions
 - Cloud services
 - Granular market approach supported by verticals and challenger brand
- Migration from traditional to IP based services continued steadily
 - PSTN / ISDN customer base trend relatively stable
 - Business DSL continues to show solid performance
- IPVPN connections remain relatively stable

Operating review – Corporate Market

- Revenues and other income Corporate Market The Netherlands up 0.9% y-on-y
 - Supported by € 8m book gain on the sale of Getronics International
- Divestment of Getronics International finalized on 1 May 2012
- Best ICT provider 2012 according to Management Team magazine³
- Further steps taken to integrate Corporate Market with Business per 1 January 2013
- Good progress accelerated FTE reduction program
 - Total provisions of € 100m booked until Q2 '12, relating to 1,450 FTE

¹ Impacted by sale of Getronics International on 1 May 2012

² Q4 '11 EBITDA and EBITDA margin excluding impact Getronics International classification as asset held for sale (€ 30m)

³ Management Team (14 June 2012)

Operating review – iBasis

- Revenue growth of 6.1% y-on-y
 - Including 4.4% positive currency effect
- Total minutes increased 6.3% y-on-y
- Average revenue per minute of € 3.9ct
- Focus remains on balancing revenue growth while maintaining healthy profitability levels
 - EBITDA margin stable in last few quarters at 2.7%
- Maintaining top-5 position in competitive international wholesale voice market

Operating expenses Dutch Telco

Further improvements underlying cost structure

- Operating expenses (excluding D&A and restructuring costs) up 1.4% y-on-y driven by investments to strengthen Dutch market positions
 - Employee benefits up € 11m (higher expenses per FTE, higher pension costs and additional shops)
 - Cost of materials stable y-on-y (lower SAC due to implementation new mobile propositions offset by higher SAC at Business segment)
 - Work contracted out € 9m lower (lower traffic costs partly offset by higher content costs TV and higher FttH access costs)
- Improvements in underlying cost structure planned, mainly related to accelerated FTE reduction program

Cost saving and quality improvements

Indirect FTE

FTE reductions

Increase efficiency by delayering and simplifying organizational model

- Direct operational management, remove management layer, simplifying decision making process
- Outsourcing and off-shoring of activities
- Optimization & standardization of processes
- Significant cost savings at headquarters

Customer facing FTE

Shops

Field force

Helpdesk

Back office

Increase efficiency by reducing complexity and implementation quality programs

- Focus on quality and customer processes leading to reduction of FTE
- Expanding and improving customer facing staff to strengthen domestic market positions

Status 4,000-5,000 FTE reduction program per Q2 '12

Total restructuring costs booked

€ 195m

Related to # FTE

~2,500

Strong reduction of personnel through

- Efficiency
 - Off-shoring
 - Outsourcing
- Program expected to be finalized end-2013*

Capex in The Netherlands

Increase customer driven investments

- Reallocation of Capex to customer driven investments, strengthening market positions
- Mobile network investments to increase due to large scale LTE roll-out

Partly offset by lower fixed network Capex

- Increased efficiency through quality improvements
- Procurement savings

➤ Group Capex outlook at € 2.0-2.2bn for 2012

Additional investments	Savings
Customer driven - TV and FttH activations, handsets	Capex efficiency program to reduce roll-out costs per HP ¹ (Reggefiber Capex)
Future proof set top boxes, interactive functionality	Lower costs customer hardware
Large scale roll-out of LTE starting this year	Procurement, renegotiation supplier agreements
Quality processes (single customer process FttH & copper)	Increased efficiency through quality improvements

¹ HP = Homes Passed

<ul style="list-style-type: none"> • Further strengthening of Mein BASE brand • Uncovered segments in value for money postpaid market; attacking postpaid no-frills segment • Multi-brand strategy with tailored offers <ul style="list-style-type: none"> – Attractive value for money all-net flat propositions, based on simplicity and transparency – Develop online & key distribution channel • Increasing data revenue share for wholesale market <ul style="list-style-type: none"> – Exploit market leadership in voice / SMS to data – Capturing significant data growth opportunity

Operating review – Germany (cont'd)

Network roll-out on track

Mobile broadband for mass market

- Unique spectrum position allowing mobile broadband for mass market via HSPA+
 - Four blocks in a row in 2.1GHz band, highest of all operators
 - Allows for capacity extension when demand increase
 - Enabling speed comparable to LTE
 - Suitable devices available in mass market
 - Combined with supplier partnership allows cost per MB leadership

Capacity (HSPA)

of spectrum blocks

Cost per MB

of spectrum blocks

Illustrative

Network roll-out on track

- On track to reach target of >80% population coverage with up to 42Mbps at the end of 2012

2012

● HSPA / HSPA+ coverage
○ EDGE coverage

Roadmap to LTE

- LTE deployment in 2013 / 2014+ along customer demand
- Mobile devices to evolve towards HSPA / LTE multi-mode
- LTE roll-out allowed in 1.8GHz
 - Leading to cost efficient re-use of existing grid

1 Two or more blocks in a row within same band

Operating review – Germany (cont'd)

- High postpaid net adds (179k) following introduction new propositions in no-frills segment
 - Yourfone introduced in April
 - simyo introduced in May
 - Blau introduced in June
- Net adds prepaid at 263k
 - Value focus in customer acquisition strategy
 - Increased competition in ethnic segment
 - Aldi Talk “All-in Flat” introduced end of June
- Service revenue growth of 3.0% in Q2
 - Market share up to 15.9%
- Data service revenue growth of 39% y-on-y supported by introduction of postpaid and prepaid all-net flat offers

Operating review – Belgium

Commercial initiatives to further strengthen Challenger position

Commercial initiatives to support growth

- Launch of 'Your Mobile Freedom' (May 2012), elimination of contract duration for all BASE retail customers
 - Setting the scene in Belgian Telco landscape
 - Further strengthen already highest customer satisfaction
 - Best offers in market
- Introduction of new proposition BASE ID (June 2012)
 - Improved flexibility by possibility to switch from bundle on monthly basis
 - Freedom to compose own combination of bundles
 - More transparency

Investments mobile broadband network roll-out

- BIPT license
 - KPN Group Belgium fulfilled 3G population coverage obligation
 - BIPT confirmed 85% target achieved (89.2%)

- 3G coverage
 - New 3G sites commercially opened in 60 cities / municipalities and business areas
- Accelerating the roll-out of HSPA via 900MHz to further improve data network coverage

Operating review – Belgium (cont'd)

Continued strong profitable growth in Belgium

- Continued strong underlying service revenue growth of 12%
 - Strong performance driven by mobile data, B2B, wholesale and interconnect traffic
 - Continued market outperformance leading to service revenue market share of >19%
- Net adds at 136k, of which 4k postpaid
 - New propositions & partners supporting net adds
 - Continued strong captive channel performance
- Accelerated roll-out of mobile broadband network continues
 - Population coverage of high speed data nearly reaching 90%
 - Enabling strong data service revenue growth via own and partner brands

Concluding remarks

- Accelerated investment strategy in The Netherlands on track
 - Important steps taken in reinforcing brand positioning Consumer Mobile
 - Leading TV proposition in Dutch market and FttH penetration increasing
 - Good progress FTE reduction program
 - Promising introduction of postpaid all-net flat propositions in Germany
 - Continued strong profitable growth in Belgium
 - Confirming 2012 EBITDA, Capex and FCF outlook
- Adjusting shareholder remuneration to balance sustainable dividend level with increased financial flexibility
- Maintaining an active dialogue with all shareholders, including América Móvil
- KPN remains fully focused on creating value for all shareholders
 - Balancing a prudent financial framework, investments and sustainable shareholder remuneration
 - BASE sale process started this month

- 1 Including restructuring costs
 2 Including impairments, if any
 3 Excluding Q4 '11 impairment of € 298m at Corporate Market

Operating expenses - analysis

Employee benefits & Cost of materials

Y-on-Y increase

- Higher pension costs mainly relating to UK and US Getronics pension funds (€ 17m) and The Netherlands (€ 5m)
- Partly offset by lower costs due to sale of Getronics International

Q-on-Q decrease

- Lower costs due to sale of Getronics International
- Remuneration payment relating to CLA¹ in Q1 '12

Y-on-Y increase

- Increased high end smartphone sales at Business
- Higher sales non-captive channels in Germany
- Partly offset by (also causing q-on-q decrease):
 - Lower SAC at Consumer Mobile due to new propositions, incl. handset lease model
 - Sale of Getronics International

Q-on-Q decrease

- Lower SAC and sale of Getronics International partly offset by increased high end smartphone sales at Business

1 Collective Labor Agreement ("CLA")

Operating expenses - analysis

Work contracted out & Other

Y-on-Y increase

- Higher traffic costs at iBasis and Germany
- Higher content related expenses
- Partly offset by lower traffic costs across all segments of Dutch Telco

Y-on-Y increase

- Higher restructuring costs
- Higher marketing costs in Germany and Consumer Mobile

Q-on-Q increase

- Higher restructuring costs
- Higher marketing costs in Germany and Consumer Mobile
- Release of various provisions in Q1 '12

Operating expenses - analysis

Depreciation & Amortization

Y-on-Y decrease

- Extension economic lifetime fiber network at NetCo

Q-on-Q increase

- Introduction new mobile propositions, incl. handset lease model at Consumer Mobile and Germany

Y-on-Y and Q-on-Q relatively stable

- Nothing material to explain

¹ Including impairments, if any
² Excluding Q4 '11 impairment of € 298m at Corporate Market

Tax

Fiscal units (€ m)	P&L		Cash flow

Upcoming auction

The auction is expected to take place in October 2012. The auction rules published in January 2012 include the following:

- Frequencies will be auctioned in the 800MHz, 900MHz, 1.8GHz, 1.9GHz, 2.1GHz and 2.6GHz bands
- 2*10MHz in the 800MHz band and 2*5MHz in the 900MHz band are reserved for new entrant(s), who are capped at 2*10MHz for the reserved spectrum
- The existing 900MHz and 1.8GHz licenses will expire as of 26 February 2013. The government announced its intention to extend the existing licenses for a period of 21 months, with a possible exception for the reserved 900MHz license
- All spectrum has minimum prices and roll-out obligations. In addition, reserved spectrum has trading restrictions for the first five years
- No spectrum caps for non-reserved spectrum
- License duration of the 800MHz, 900MHz, 1.8GHz, 1.9GHz and 2.6GHz bands will be 17 years. The 2.1GHz licenses expire on 1 January 2017
